

P O N D  
A N  
ALMANACK

For the Year of our  
L O R D G O D

1 6 9 6.

Being the Bissextile or Leap-  
year, and from the Worlds Creation at  
the Spring 5699 years Compleat.

Amplified with many good things,  
both for pleasure and profit: and fitted for  
the Meridian of *Saffron-Walden in Essex*,  
where the Pole is elevated 52 degrees and  
6 minutes above the Horizon.

And may serve indifferently for any other  
place of this Kingdom.

C A M B R I D G E,

Printed by *John Hayes*, Printer to the  
University, 1696.

The Vulgar Notes and moveable Feasts for this

Year 1696, in both Accounts viz,

Julian or  
English.

Gregorian or  
Forreign.

The Sun's entrance into the four Cardinal Signs.

**H**e enters  $\gamma$ , March the 10<sup>th</sup> day, 6 minutes past 5 at night, and then begins our Spring Quarter.

**H**e enters  $\zeta$ , June the 12<sup>th</sup>, 36 minutes past 6 at night, and then begins our Summer Quarter.

**H**e enters  $\pi$ , September the 13<sup>th</sup>, 34 minutes past 10 at night, and then begins our Autumn.

**H**e enters  $\nu$ , December the 12<sup>th</sup>, 26 min. past 3 in the afternoon, and then begins our Winter Quarter.

Times prohibiting Marriage.

**M**arriage comes in on the 13 day of January, and at Septuagesima Sunday it is out again untill Low-sunday; at which time it comes in again, and goes not out till Rogation-sunday: thence it is forbidden untill Trinity-sunday, from whence it is unforbidden till Advent-sunday: but then it goes out, and comes not in again till the 13 day of January next following.

The

# The beginning and ending of the Terms.

Hilary Term begins January 23. ends February 13.

Easter Term begins April 29. ends May 25.

Trinity Term begins June 12. ends July 1.

Michaelmas Term begins Octob. 23. ends Novemb. 28.

A Table shewing how many years Purchase a Lease or Annuity to endure for any number of years under 30, is worth presently, at interest upon interest, at six in the hundred, and shewing also how to discount any Lease in being, and the true value of the Reversion after any number of years.

Years of a Lease	Years.	Months.	Dec. parts.	The Use and Explanation of this Table.	Years.	Months.	Dec. parts.
1	0	1	0	<p><b>T</b>he first Column at the left hand sheweth the years of a Lease, or Annuity; and right against each year are the years, months, and decimal parts of a months purchase that such a Lease or Annuity is worth.</p> <p><i>Example.</i></p> <p>Suppose a Lease or Annuity to continue 18 years, and you would know how many years purchase it is worth in ready money, look in the Column of the years of a Lease, for 18 years, and against the same you shall find 10, 9, 9. which shews such a Lease to be worth 10 years.</p>	16	10	7
2	1	2	0		17	10	9
3	2	3	0		18	10	11
4	3	4	0		19	11	1
5	4	5	0		20	11	3
6	4	6	0		21	11	5
7	5	7	0		22	11	7
8	6	8	0		23	12	0
9	6	9	0		24	12	2
10	7	10	0		25	12	4
11	7	11	0		26	13	0
12	8	1	0		27	13	2
13	8	2	0		28	13	4
14	9	3	0		29	13	6
15	9	4	0		30	14	0

## The Use and Explanation of this Table.

The first Column at the left hand sheweth the years of a Lease, or Annuity; and right against each year are the years, months, and decimal parts of a months purchase that such a Lease or Annuity is worth.

### Example.

Suppose a Lease or Annuity to continue 18 years, And you would know how many years purchase it is worth in ready money, look in the Column of the years of a Lease, for 18 years, and against the same you shall find 10, 9, 9. which shews such a Lease to be worth 10 years,

9 months, and 9 ten parts of a months purchase. So that the yearly rent being 12 pound, the value will be thus found.

10 times 12 is 120  
12<sup>th</sup> in 9 mon. is 9  
in 9 parts is 0  
the value 129 18 0

But if you buy the Reversion of a Lease now, as suppose a Lease of 20 years continuance, and you commence not till 5 years be past, in this and such like cases, look for the present worth of the Lease, as this of 20 years, which will be found worth 11 years, 5 months, 7 tenths of a months purchase, then look the present worth of a Lease of 5 years, which will be found worth 4 years, 2 months, 5 tenths, take this out of 11 5 7 and there remains 7, 3, 2. which are 7 years, 6 months, 2 tenths of a months purchase; and so much is the Reversion of the Lease of 20 years, after 5 years worth be expired.

# January hath xxxi days.

First quarter the 1 day, 43 min. past 9 in the forenoon.  
 Full moon the 9 day, 36 min. past 6 in the morning.  
 Last quarter the 17 day, 59 min. past 9 beforenoon.  
 New moon the 24 day, 36 min. past 5 in the morning.  
 First quarter the 30 day, 43 min past 11 at night.

Now if your bodies health you'd keep,  
 Warm meats for it is very meet :  
 Fly Physick, Sloth, and Venery,  
 Avoid all Baths most carefully.

## January 1696.

Fine mild  
 weather be-  
 gins the month

Cold with  
 some snow or  
 rain about this  
 time.

Frosty cold  
 weather.

Close dark  
 weather, but  
 very sea-  
 sonable.

Uncover as yet roots of Trees  
 where ablaqueation is requisite, Plant  
 Quick-sets, and Transplant Fruit  
 Trees, if not finished. Set Vines,  
 and begin to prune the old, Prune the  
 branches of Orchard fruit Trees,  
 especially the long planted, and that  
 towards the decrease: but for such  
 as are newly planted, they need not  
 be disbranched till the sap begins to  
 stir: In this work cut off all the shoot  
 of *August*, unless the nakedness of the  
 place incline you to spare it:

You may now begin to Nail and  
 Trim your Wall fruit: Cleanse Trees  
 of Moss, &c. the weather moist. Ga-  
 ther Cyons for Grasss before the Buds  
 sprout, and about the latter end Grass  
 them in the stock; Pears, Cherries,  
 and Plums. Set Beans, Pease, &c.  
 In this month forbear Physick, or to  
 let blood, unless necessity constrain;  
 beware of taking cold, for Rheums  
 and Flegm do much increase this  
 month.

# February hath xxix days.

Full moon the 8 day, 10 min. past 2 in the morning.  
 Last quarter the 16 day, 21 min. past midnight.  
 New moon the 22 day, 10 min. past 3 in the afternoon.  
 First quarter the 29 day, 43 min. past 3 in the aftern.

In this month remove Grass of  
 former years Graffing. Cut and  
 lay Quick-sets, Plant Vines as yet,  
 and Hops, and fruit that grows on  
 bunches. Set all sorts of kernels and  
 strong Seeds, also sow beans, Pease  
 Corn-sallet, Marigold, Anny-seeds,  
 Radish; Parsnips, Carrots, Onions,  
 Garlick. Rub Moss off your Trees  
 after a soaking rain, and scrape and  
 cleanse them of Cankers. Cut off the  
 Webs of Caterpillars from the tops  
 of Twigs and Trees to burn. Parsly,  
 Spinage and other hardy Pot herbs  
 may now be planted. Half open your  
 passages for the Bees, but continue  
 to feed weak Stocks.

Be still sparing in Physick, or to  
 let Bloud without necessity, and be  
 carefull not to catch cold when the  
 weather flatters with warmth.

# March hath xxxi days.

Full moon the 8 day, 5 1 min. past 7 at night.

Last quarter the 16 day, 25 min. past 10 before noon.

New moon the 23 day, about 1 in the morning.

First quarter 30 day, 22 min. past 9 in the forenoon.

18  
19 Windy and  
20 battering  
21 storms.

22  
23  
24  
25  
26  
27 Windy and  
28 dry towards  
29 the end.

30  
31

You may as yet cut Quick-sets, and cover such Tree-roots as you laid bare in *Autumn*; sow Oats, Barly, Parsnips, Onions, Carrots, Mel-lons, Cucumbers, &c. Graff all this month, beginning with Pears, and ending with Apples, unless the Spring prove extraordinary forwards. Prune last Years Graffs, and Cut off the heads of your budded Stocks. It were profitable now also to top your Rose-Trees a little with your knife near a leaf bud, and to Prune off the dead and withered branches, keeping them lower then the custome is; and to a single Stem.

Slip and Set Sage, Rosemary, Lavender Thyme, &c. Mid-March dress up and string your Straw-berry beds. It is now seasonable to purge and let bloud about the 20 of this month, there are such changes in the Air, yet it's generally very sickly; and therefore be specially carefull of your health at that time.

# April hath xxx days.

By Physicks help mayest be secure  
From Sicknes present, or future.  
It's good to bathe, to purge or bleed,  
Refuse no means to serve thy need.

April 1696.

1  
2 Windy wea-  
3 ther, but in-  
4 differently  
5 warm and  
6 pleasant.  
7  
8  
9  
10  
11 Cloudy, but  
12 warm with  
13 pleasant  
14 showers.  
15  
16  
17  
18  
19 Now expect  
20 some thunder  
21 about this  
22 time.  
23  
24  
25  
26  
27 Very seasona-  
28 ble weather  
29 ends the  
30 month.

Now is the time to sow Hemp, and  
Flax, ( Pole Hops, ) Sweet Marjo-  
ram, Hysop, Thyme, Winterfavory,  
Scurvy-grass, Lettice, Purllian, Rad-  
dish, &c. Plant Artichoke-slips, and  
set French Beans, you may slip La-  
vender, Thyme, Penceroyal, Sage,  
Rosemary, &c.

Gather up worms and snails in  
your garden after Evening showers,  
continue this after all Summer  
rains. Open your Bee-hives, for  
now they hatch: Bark Trees for  
Tanners. The use of Physick is  
now seasonable, as also Purging  
and Bloud-letting.

# May hath xxxi days

Full moon 6 day, 45 min. past 11 at night.

Last quarter 13 day, 33 min. past 10 at night.

New moon the 20 day, 52 min. past 9 at night.

First quarter 28 day, 12 min. past 8 at night.

31	d	Whit-Sunday		29	3	46	8	14

Rise early, walk and feed with care :

Stale fish, and tainted flesh beware.

Hot meats eschew. Drink with Wormwood

And clarif'd Whey's very good.

May 1696.

1  
2 Cold and  
3 somewhat  
4 unpleasant  
5 for the season  
6 with some  
7 rain.

9  
10  
11  
12 Windy and  
13 battering  
14 storms.

16  
17  
18  
19  
20 Now fine se-  
21 rene and calm  
22 Air.

23  
24  
25  
26 Fine pleasant  
27 weather with  
28 refreshing  
29 showers and  
30 thunder.

Sow sweet Marjoran, Thyme, and  
those Herbs and Plants which are  
most tender; now distil Plants for  
waters, Spirits, &c. Continue weed-  
ing before they run to seeds, weed  
also your Hop Gardens and Corn,  
and walk in the Fields and Gardens  
early in the Morning.

Now set your Bees at full liber-  
ty, look out often, and expect swarms.  
Plant your Carnations and Gilly-  
flowers after mid-day about this sea-  
son. Plant also your Stock Gilly-  
flowers in Beds at full Moon. Whey  
Clarified with Sage, Scurvy-grass  
Ale, and Worm-wood Beer are  
wholesom drinks.

Look well to swarms, provide new Hives,  
 Use Bees as gently as your Wives :  
 For both (offended) have their stings ;  
 But (Pleas'd) are profitable things.

June 1696.

- 1
- 2 Good mode-
- 3 rate weather
- 4 begins the
- 5 month.
- 6
- 7
- 8
- 9
- 10 Now inclining
- 11 to heat, with
- 12 black clouds
- 13 and thunder.
- 14
- 15
- 16
- 17
- 18 Wet and win-
- 19 dy about this
- 20 time,

- 22
- 23
- 24
- 25
- 26 Very good\*
- 27 seasonable
- 28 weather con-
- 29 cludes the
- 30 month.

Sow Lettice, Chervile, Radish,  
 &c. to have young and tender sal-  
 letting. Gather Herbs in the Full  
 Moon to keep dry ; they keep and  
 retain their vertue and sweet smell  
 better, if dryed in the shade, than  
 in the Sun, whatever some pretend.  
 Set Rosemary and Gilliflowers 3 or 4  
 days after the Full, and they will not  
 run to seed. Look to your Bees for  
 Swarms and Casts, and begin to de-  
 stroy Insects in your Garden with  
 Hoofs, Canes, and tempting Baits ;  
 gather snails after Rain, &c.

Thin and light Diet, and chaste  
 thoughts tend to health : Lie not un-  
 advisedly on the ground, nor over  
 hastily drink.

# July hath xxxi days.

Full moon the 4 day, 56 min. past 6 in the afternoon.

Last quarter the 11 day, 54 min. past 7 beforenoon.

New moon the 18 day, 52 min. past 11 at night.

First quarter the 27 day, 56 min. past 2 in the morn.

In this month, fallow your Land  
 for Wheat, pull up Hemp that is ripe,  
 get Rue and Wormwood to drive  
 away Fleas and Moths ; dry Flowers  
 in the shade and then Sun them a  
 little for fear of corruption ; perfume  
 your house with sweet scents, and  
 defend your self from stinks in the  
 street.

Forbear superfluous drinking, but  
 eat heartily ; use cold Herbs and  
 Meat, abstain from Physick. Perfume  
 your house every morning with Tar,  
 use Carduus Benedictus boiled, and  
 drink fasting.

# August hath xxxi days.

Full moon the 3 day, 35 min. past 1 in the morning.  
 Last quarter the 9 day, 36 min. past 2 in the afternoon.  
 New moon the 17 day, 10 min. past 3 in the afternoon.

This month serves not for Medicine,  
Sleep but little in the day time,  
Drink not being hot. Take no cold,  
Agues and sickness soon catch hold.

August 1696.

1  
2 Good weather  
3 at the begin-  
4 ing, and tem-  
5 perate as to  
6 heat.

7  
8  
9  
10  
11  
12 Some wind  
13 with storms of  
14 hail.

15  
16  
17  
18  
19  
20 Very hot and  
21 tempestuous  
22 with thunder.

23  
24  
25  
26  
27  
28 Towards the  
29 end hot and  
30 dry.

31

This month reap Whear and Rye,  
cut down your Oats and Barley that  
is ripe, gather Garden-seeds, sow  
Corn-sallet, Marigolds, Lettice,  
Carrots, Parsneps, Turneps, Spinage,  
Onions: Likewise now pull up ripe  
Onions and Garlick.

This month use moderate diet,  
forbear to sleep presently after meat,  
for that brings Opilations, Headach,  
Agues, and Cathars, and other Di-  
stempers of the same kind; take heed  
of sudden Cold after great Heats.

# September hath xxx days.

When Summer fruits in house are plac't,  
 Think not too long before 'tis out ;  
 But dip and deal. Making no wast,  
 Mayst have to bring the year about.

## September 1696.

1  
 2 Fine moderate  
 3 weather begins  
 4 the month.

5  
 6  
 7  
 8  
 9  
 10 Windy If not  
 11 wet about  
 12 this time.

13  
 14  
 15  
 16  
 17  
 18 Cold misty  
 19 weather, and  
 20 storms of hail  
 21 or rain.

22  
 23  
 24  
 25  
 26  
 27 Very good  
 28 weather for  
 29 the season of  
 30 the year.

Gather now ( if ripe ) your winter Fruits, as Apples, Pears, Plums, &c. to prevent their falling by the great winds. Also gather your wind-falls from day to day : do this work in dry weather.

Set Artichoaks, sow seeds for winter Herbs, gather Hops, about the full of the moon the weather being dry, cut Quick-sets, sow Wheat and Rye, kill Bees, make Verjuice, sow Parsnips and Carrots, remove and set slips of Flowers, set Roses, Strawberries and Barberries, &c.

# October hath xxxi. days.

Last quarter the 7 day, 13 min. past 9 at night.

New moon the 15 day, 36 min. past 11 at night.

First quarter the 23 day, 52 min. past noon.

Full moon the 30 day, 30 min. past 4 in the morning.

It were in vain for me to tell

Good husbands when their Wheat to sow :

Experience teacheth them right well,

Best times and seasons how to know.

October 1696.

Cloudy and  
dark weather.

Fine pleasant  
clear weather.

Windy with  
cold rain.

Towards the  
end inclining  
to frost.

Remove young Plants and Trees  
in the new of the moon, and about  
the full of the moon, gather such  
fruit as you left ungathered the last  
month; set all kind of Nuts and A-  
corns, and cut your Rose trees but  
once in two years, if you would have  
store of Roses.

Provide warm Cloaths now, and  
consult as well the Taylors as Phy-  
sicians.

# November hath xxx days.

Eat well, and drink well, sleep at large.  
Keep neck and feet dry. Spare no charge.  
To keep thy self warm; and in health;  
Thy bodies more worth then they wealth.

## November 1696.

1  
2  
3 Mild weather  
4 for the season.

5  
6  
7  
8  
9 More turbulent  
10 with snow or  
11 rain.

12  
13  
14  
15  
16  
17 Various and  
18 unsorted wea-  
19 ther about  
20 this time.

21  
22  
23  
24  
25  
26 Inclining to  
27 frost towards  
28 the end.

29  
30

In the new moon remove young  
Trees, set Crab-tree stocks to graft  
on the following Year, and at the  
decrease or old of the moon sow and  
set early Beans and Pease; trench  
and fit ground for Artichoaks, &c.  
Make Mault, kill Hogs, and make  
Martimas Beef.

Use good Meate, and wholesome  
Drinks to nourish the Blood, and  
be sure to go dry of your feet; for  
if not (unless you be used to it)  
you'll be certainly troubled with  
Rheums, and Cold, &c. If any di-  
stemper afflict the Body, finish your  
Physick this month, and to rest 'till  
March, unless necessity urge.

# December hath xxxi days

Last quarter the 6 day, 42 min. past noon.

New moon the 14 day, 4 min. past 8 in the morning.

First quarter the 22 day, 49 min. past 3 in the morning.

Fall moon the 28 day, 49 min. past 8 in the morning.

In this month and also in the next  
all great Timber in the decrease of  
the moon, for then it being driest  
will last the longer; uncover the  
roots of your fruit-trees, you may  
now plant Vines, also stocks for gra-  
fing, set all sorts of Kernels, Stones,  
&c. All this month you may conti-  
nue to trench and dung ground, to  
be ready for the Planting of Fruit-  
Trees, &c. Either late in this month,  
or in *January* Prune and Cut off your  
Vine shoots to the very Root.

Let the Kitchen be thy Apothe-  
caries shop, hot meats and broths  
thy Physick.

William	1688	Febr.	13		Whom God grant long to Reign.					7	James

## The Use of the Table in Example.

King Henry 8 began his Reign in the Year of Christ 1509, April 22 He Reigned 37 Years, 10 months, and 2 days. It is since he began his Reign 187 years compleat the 22 of April this year 1696. Now to know the time since the end of his Reign, before his name standing on the right hand, you shall there find 149 Years since he died, Jan. 28. And so of the rest.

*The Eclipses which will happen this  
Year 1696.*

**T**Here will happen but two visible Eclipses, and they will be both of the Moon. There will be two also of the Sun, but invisible in our Horizon. Those of the Moon are as followeth.

The first will be on *May* the 6 day, about midnight, in 27 degrees of the Martial Sign *Scorpio*, the Moon looseth her light on the very Cuspe of the Angle of Honour, it will be a visible and total Eclipse.

The second will happen *October* the 30 day, about 4 in the morning, and is Celebrated in 18 degrees of *Taurus*; this is also a great visible and total Eclipse, and happens in the 8 Angle of the Heavens. The moon will be Eclipsed exactly in her Southern Node.

On *December* the 14 day will happen a famous Conjunction of *Saturn* and *Mars*, in 26 degrees of *Capricorn*, and will be famous in its effects also, especially in the more Southern parts of the world. As to the effects, I leave it to time and those who are curious to shew it to the world.

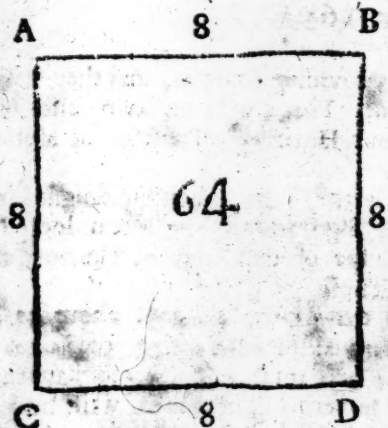

---

*How to Measure Land.*

**F**irst, If Land be just Square like unto the following Figure *ABCD*, then multiply the side in it self, and the Product is the superficial capacity. Example, suppose the square *ABCD* be

*Pond 1696.*

be a piece of Land, and the side thereof contain 8 Perches, therefore Multiply 8 into it self, and the

Product is 64 ; and so many Perches doth that square Piece of Land contain. But if you cannot Multiply, you may account by your memory, saying 8 times 8, which you shall find to make 64, as aforesaid ; that is 0 Acr. 1 Rood, and 24 Perches : for 40 Perches make a Rood, 80 half an Acre, 120

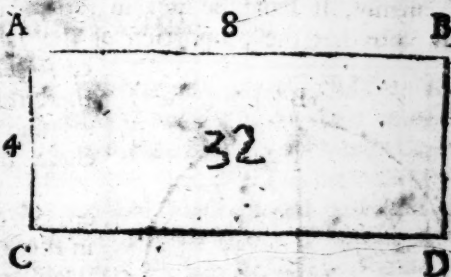

Three Roods, and 160 an Acre.

Secondly, If Land lie in the Form of a long Square or Parallelogram, having the opposite sides equal, like the following Figure A B C D, then multiply the longer side by the shorter and the Product is the content. Example, suppose the next Figure A B C D be a piece of Land whose longer side A B (equal to C D ) is 8 Perches and the lesser side A C 4 Perches, Now if you Multiply 8 by 4, the Product 32 is the content of this piece of Land in Perches ; After this manner may all kind of Lands in the open fields be measured, for though the one end be broader then the other yet

# Pond 1696.

yet the breadth being taken at the ends, you must add them together and take the half thereof.

Example, suppose the length of a Land taken in the field be 44 Perches, the breadth at one end 5, and the breadth at the other end 3 Perches,

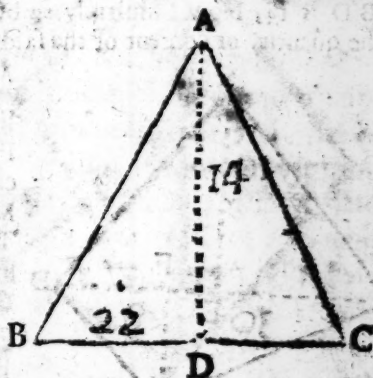

ches, their Summ 8, the half thereof 4, is the true breadth, then say 4 times 44 is 176, and that is 1 Acr, and 16 Perches for the content of that Land.

Thirdly, If Land lie in the shape of a Triangle

like this Figure, you are to Multiply the Perpendicular by half the Base, and the Product sheweth the content.

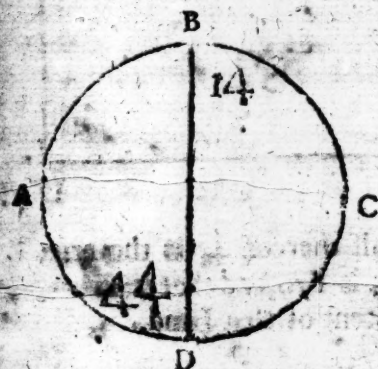

Example, In this Figure the Base BC is 22 Perches, and the Perpendicular AD 14, which I multiply by the half Base 11, and the Product 154

is the content of the said Land in Perches, Remembering that we call the greater side of the Triangle the

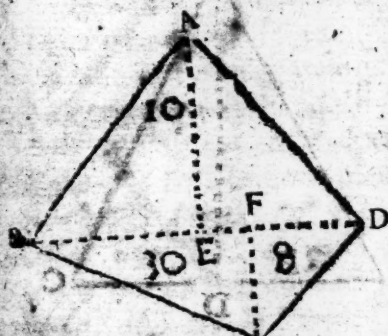

the Base, whereon the Perpendicular (coming from the opposite Angle) must fall square-wise, that is making right Angles therewith.

Fourthly, If Land be just in the form of a Circle, you must Note that the proportion of the Diameter to the Cir-

cumference is as 7 to 22, therefore the Diameter being known, you may conclude the Compass to be Three times so much, and one Seventh part more. As in this Circle ABCD, the Diameter BD is 14, and therefore the Compass is 44. To measure this piece of Land, Multiply half the Circumference by half the Diameter, and the product is the content. Example,

In this Circle ABCD, the Diameter or greatest breadth thereof BD is 14, Now I Multiply 22 by 7, and the Product 154 is the quantity or content of the said piece of Land,

Fifthly, When Land lies in the fashion of this Figure ABCD, which is called a Trapezie; then Multiply the Sum of the Two Perpendiculars, by half the Base, and you shall have the superficial capacity thereof. Example, First I draw the Diagonal-Line BD, and thereon let fall the Per-

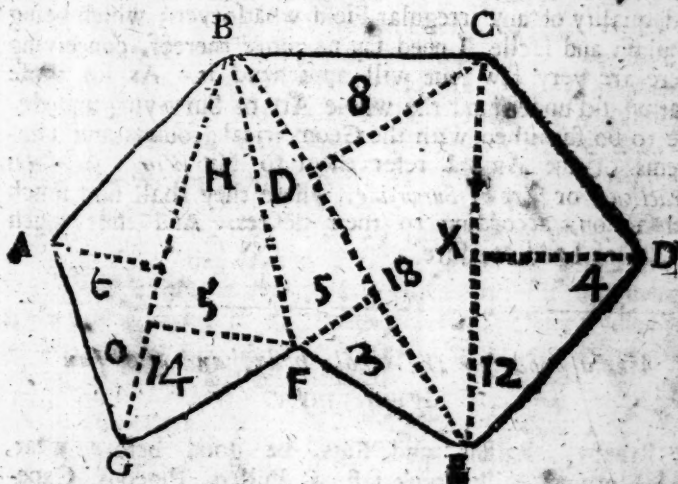

pendiculars AE and CF at Right Angles upon the Base BD,

BD,

B D, then I measure A E, and find it 10 Perches, and C F 8, their Summs are 18, which I Multiply by half the Base B D 15, and the Product is 270 Perches; that is 1 Acre, 2 Roods, and 30 Perches for the content of the piece of Land A B C D.

Sixthly, But if Land lie irregular, and be full of Nooks and Corners, then the best way will be to divide it into Trapezies and Triangles upon the Ground, which may be done by setting up little Sticks in a straight Line between corner and corner; as in this irregular Figure noted with the Letters A B C D E F G, where I draw Lines from one Angle to another, B G, B F, B E, C E, and so is the Figure reduced into the Trapezies A B G F, B F E C, and into the Triangle C D E. Then cast up the content of 2 Trapezies, and the Triangle as before is shewed, and their Sum is the content of this irregular Figure.

Example, In the Trapezie A B F G, the Summs of the Perpendiculars A H and F O are 18, and the half of the Base G 3

Base BG 7, which Multiplied together, make 77 for the content of the Trapezie ABFG. Again, in the Trapezie BCEE, the Sums of the Perpendiculars FS and CD are 11, and half the Base BE is 9, which Multiplied together make 99 for the content of that Trapezie. Thirdly, In the Triangle CDE, the half Base CE 6, Multiplied by DX 4, the Perpendicular maketh 24, the content of the Triangle CDE. Lastly, Add together the 2 Trapezies and the Triangle, and the Sum is the content of the whole irregular Figure, ABCDEFG.

Example,  $\left\{ \begin{array}{l} \text{Trapezies} \\ \text{Triangle} \end{array} \right\} \left\{ \begin{array}{l} \text{A B F G } 77. \\ \text{B C E F } 99. \\ \text{C D E } 24. \end{array} \right\} \text{Sum } 200.$

These Three Numbers being added together, make 200 Perches, which is 1 Acre and 1 Rood; and so much doth this irregular Figure contain. After this manner may any ordinary Artificer or Tradesman call up the true content and quality of any irregular Field whatsoever; which being so plain and facile, I need say no more thereof, conceiving there are very few but will apprehend it. As for those that would understand the whole Art of Surveying and desire to be furnished with the Geometrical grounds and Theorems of the Art, I refer them to Mr. Wing's *Geodætes Practicus, or Art of Surveying*, where they shall find much satisfaction, according to their desires. And thus much briefly of Land Measure.

---

*Mears good for the whole body, and of a sanguine juice.*

Grapes, Raisins, and Figs, be good before meat, Morning Milk drunk fasting, Pullers, Pigeons, Capons, Veal sucking, Young Pork, Beef not above 3 years old, Rice with Almond milk, Birds of the field, green Geese,

## *Pond 1696.*

Geese, Hen-Eggs new potched, nor hard, Pheasants, Partridges, and Fishes of Stony Rivers.

*Meat good to temper Choller, and to assuage heat with moistness.*

New Cheese, Rapes, Lambs, Cowcumbers, all great Fish, Lungs, Brains, inward parts of beasts, and meats full of sinewes.

### *How the Vertues be corroborated.*

The Vertues be either Vital, Animal, or Natural; the Vital Vertues remain in the heart, the Animal in the brain, and the Natural in the Liver: the Vital virtues are governed by *Sol* and *Jupiter*; the Animal of *Luna*, *Mercury*, and *Venus*; and the Natural of *Jove* and *Venus*.

Other Vertues be also governed of the Planets, as the vertue Attractive is governed of *Sol*, the Digestive of *Jove*, the Retentive of *Saturn*, and the Expulsive of *Luna*.

Also the Signs thus govern the vertues, *Aries* and *Sagittarius* rule the Attractive, *Gemini* and *Libra* the Digestive, *Taurus* and *Virgo* the Retentive, and *Cancer* and *Pisces* the Expulsive.

Also the Vertues be ruled by the Planets thus: *Sol* the well-Spring of the vertues Vital, *Luna* of the vertues Animal, *Saturn* of the Receptive, *Jupiter* of the Augmentative, and *Mercury* of the Imaginative: Therefore when you would fortifie any of these Vertues, fortifie the Planet signifying the same and it is done.

### *Rules for drawing of blond.*

In letting of blood you must know what persons are fit to bleed, and what not; and if they be fit, how is it with the person inwardly, for his complexion and Age, and

*Perd 1696.*

and outwardly for the time of the year, time of the month, day and diet.

*For Completion.*

For the Phlegmatick let the Moon be in *Aries* or *Sagittarius* when ye draw blood. For the Melancholly in *Libra* or *Aquarius*. For the Cholerick in *Cancer* or *Pisces*. And for the Sanguine in any of the aforesaid: *Luna signum membrum dominans peragante.*

*For Age, Let blood*

In Youth from the change to the first Quarter. In middle age from the first quarter to the full. In elder age, from the full to the last quarter. In old age from the last quarter to the change.

*For the time of the year.*

The Spring is best, harvest indifferent, the rest of the year bad, and to be used but upon necessity.

*For the time of the Month.*

Let not blood 3 days before or after the change, the day before and after the Conjunction of *Luna* and *Saturn*, the like of the Conjunction of *Luna* and *Mars*; Let not blood, *Venus* and *Luna* in Conjunction, while *Venus* is combust, Let not blood the day before and after the full Moon: the like observe, the Moon in Conjunction with *Saturn* or *Mars*. The Moon in any Aspect with *Jupiter* or *Venus*, or in a Sextile or Trine with *Sol* or *Mars* produce a fit time to let blood: *this to the skilful may be of use.*

*The*

*Pend. 1696.*

*The time of the day.*

The morning fasting is best, or in the evening after perfect digestion, provided the Air be temperate and the wind not south. Persons that are not fit to bleed be such as are under the age of 14 years, or more then 59 years old, or, those that are exceeding fat, or very lean. And after bleeding use no violent exercise, no Sleeping, Venery, or Gluttony.

*Things good for many parts, and first for the head,*

Galingal, Marjoram, Rosemary, Roses, Hyssop, Camomil, Rue and Frankincense.

*For the Heart,* Cinnamon, Saffron, Cloves, Mace, Bugloss, Burrage, Sennal, Rosemary, Marjoram, Musk and Nutmeggs.

*For the Stomach,* Quinces, Nutmeggs, Saffron, Wormwood, Coral, Mint, Cloves and Coriander prepared.

*For the Eyes,* Fennel, Vervan, Cloves, cold water, Celendine, Eye-bright.

*For the Liver,* Lettice, Liverwort, Violets, Rosewater, Plantan, Fennel and Cloves.

*For the Lungs,* Licorish, Raisins, Almonds, Dates, Lungwort and Pennidice.

*Meats hurtfull for the Teeth.*

Nuts, Meats very hot, warm drink, sweet meats and drinks, Radish roots, hard meats, bitter meats, milk, much vomiting, Leeks, fat of Fish, and Coleworts.

*Things hurtful to the Eyes.*

Garlick, Onions, Radish, Drunkenness, sweet and thick wines, salt meats, Coleworts, all Pulse, Dust, fire, and reading presently after Supper.
